FORD, GENERAL MOTORS AND TOYOTA**

Prestone®

EXCELS IN EXTREMES

COOLANT/ ANTIFREEZE ALL MAKES, ALL MODELS, GUARANTEED

- Developed with and trusted by OE vehicle manufacturers for factory fill in Europe and across the globe
- Mixes safely with **ANY** coolant/antifreeze already in the system, reducing degradation and improving its performance by repairing the stability and corrosion protection
- Prestone coolant is guaranteed to be suitable for **ALL** cars and light duty vehicles on the road today, including modern, vintage, classics and hybrid technology models.
- Patented anti-corrosion technology guarantees protection for up to **10 years or 300,000 miles**
- Exceeds the performance requirements for all vehicle manufacturers including the **VAG 'G'** specifications
- Instantly layers and bonds to cooling system components, protecting the entire cooling system and stopping the spread of cavitation, erosion, corrosion and rust

- Prestone prevents corrosion inside the cooling system, protecting each metal and non-metal part and ensuring longer engine life
- Provides like new performance after 4 million mile fleet test

Available in 1L, 4L, 20L, 60L and 205L in concentrate and ready to use formulations.
